Image-i Floating-dən Konteyner-ə Çevirmək

Objects - Web Page - Dashboard-a Sayt əlavə etmək

Objects - Navigation - Bir Dashboard-dan digərinə keçid

The screenshot illustrates the process of creating a navigation button in Tableau to move from one dashboard to another. The interface includes a sidebar with 'Dashboard', 'Layout', 'Size', 'Sheets', and 'Objects' sections. The 'Objects' section is expanded, showing various object types like Extension, Data Story, Image, Blank, Workflow, Web Page, Navigation, Download, Add Filters, and Einstein Discovery. The 'Floating' option is selected under the 'Navigation' category.

The main workspace displays two dashboards: 'Total Sales by Platform' (a bar chart) and 'Total Sales by Year' (a line chart). A button is placed on the 'Total Sales by Platform' dashboard, and the 'Edit Button' dialog box is open. The dialog box has the following settings:

- Navigate to:** Dashboard 1
- Button Style:** Image (selected)
- Image:** Без названия.jpg (with a 'Choose' button)
- Border:** None
- Background:** None
- Tooltip:** Enter optional tooltip text (0/80 characters) (with an 'Apply' button)

Arrows indicate the workflow: selecting the 'Floating' navigation object, placing it on the dashboard, and configuring its properties in the 'Edit Button' dialog.

Total Sales by Platform Data:

Platform	Sales
3DS	240
DC	16
DS	818
GB	254
GBA	313
GC	197
GEN	28
GG	0
NG	218

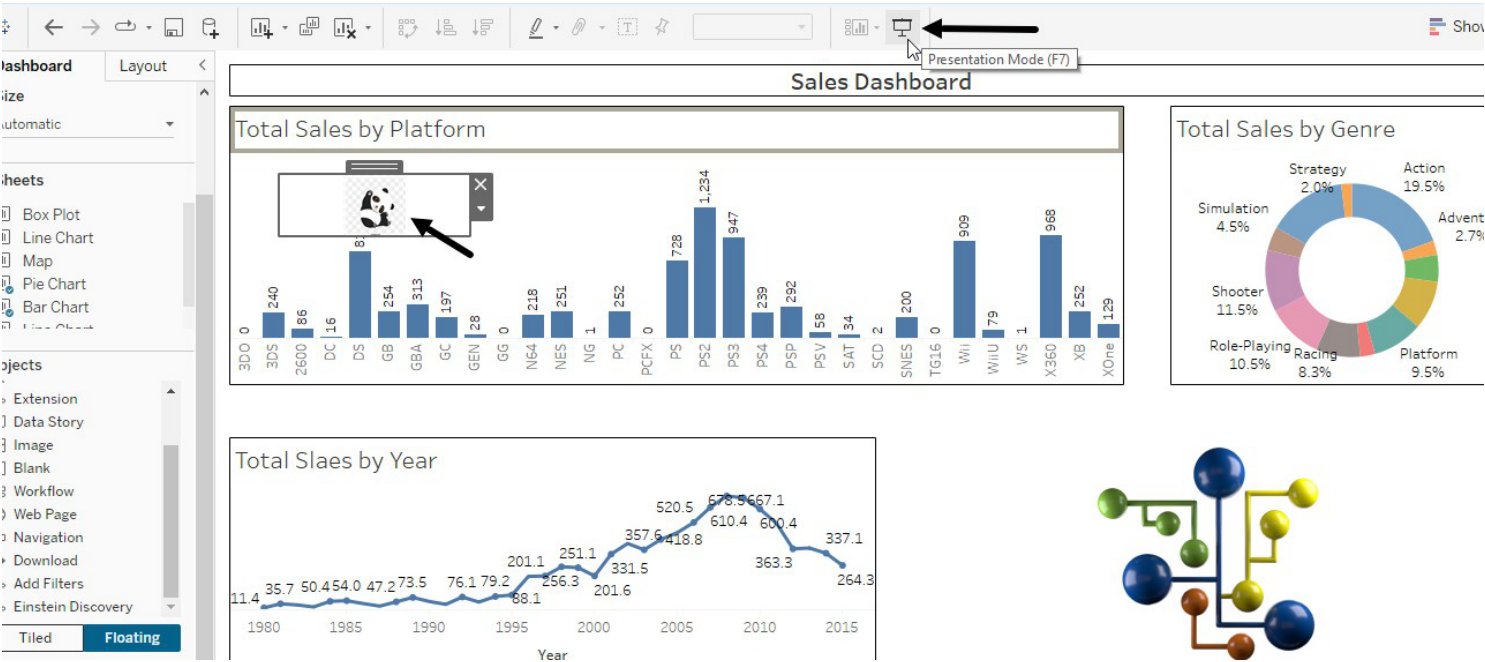

Total Sales by Year Data:

Year	Sales
1980	11.4
1985	35.7
1990	50.4
1995	54.0
2000	47.2
2005	73.5
2010	76.1
2015	79.2
2020	201.1

Total Sales by Genre Data:

Genre	Sales
Simulation	4.5%
Shooter	11.5%
Role-Playing	10.5%
Racing	8.3%
Strategy	2.0%

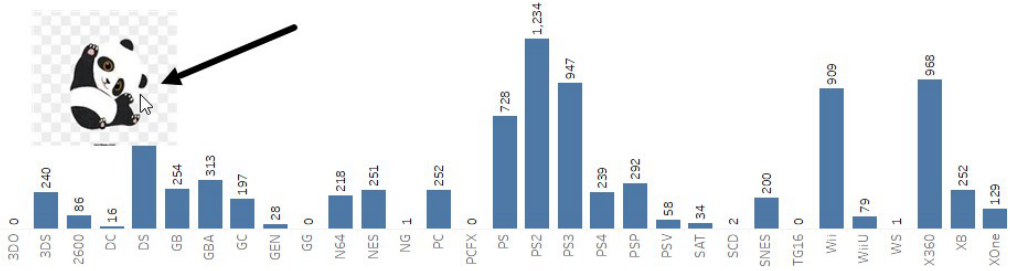

Bu halda işlemez - Ancaq Presentation Mode-a keçmək lazımdır

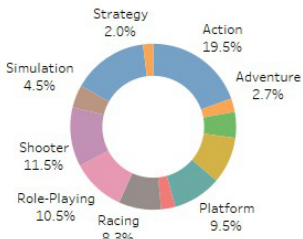

Presentation Mode - Navigator-a Click et 'Dashboard 1'-ə keçid et
