Set - Top_N-u Color-ə atmaq (Filter-ə də atmaq olar)

Parameter-ə bağlamaq üçün Filter - Top_N yaratmaq

The screenshot illustrates the process of creating a Top_N filter in Tableau. The 'Filter [Product Sub-Category]' dialog box is open, with the 'General' tab selected. The 'Use all' radio button is chosen, indicating that all values for the selected field will be included in the filter. The 'Summary' section provides a summary of the filter settings: Field: [Product Sub-Category], Selection: All, Wildcard: All, Condition: None, and Limit: None. The background shows the Tableau interface with a list of tables on the left and a bar chart on the right.

Başlıq Adını Parameter-ə bağlamaq

The screenshot illustrates the process of linking a title to a parameter in Tableau. The main interface shows a worksheet with the following configuration:

- Columns:** SUM(Profit)
- Rows:** Product Sub-Cate...
- Filters:** Product Sub-Catego...
- Marks:** Automatic

The 'Edit Title' dialog box is open, showing the title text: "Top <Parameters.Top N> Prodcut Sub Categor". The 'Insert' menu is open, and the option "Parameters.Top N" is selected. The 'Top N' parameter is also visible in the top right corner of the interface, set to 10.

Arrows indicate the following steps:

- Clicking the 'Edit Title' button in the top right of the dialog box.
- Clicking the 'Parameters.Top N' option in the 'Insert' menu.
- Clicking the 'OK' button in the dialog box.
